This shall include such unlawful possession, use or distribution of illicit drugs and alcohol by any student of the district during regular school hours or after school hours at school sponsored activities on school premises, at school sponsored activities off school premises. GRADING SYSTEM

All grading for academic subjects is on a percentage basis. The letter equivalents are as follows:

A+ 99-100	B+ 92-93	C+ 84-85	D+ 76-77
A 96-98	B 88-91	C 80-83	D 72-75
A- 94-95	B- 86-87	C- 78-79	D- 70-71

F--Below 70 (Failing with no credit for the semester)

S--Satisfactory

U--Unsatisfactory

Cond.--Conditional

Inc.--Incomplete

A conditional (70) may be given at the end of the first semester if, in the judgment of the instructor, the work has been of marginal quality to warrant a passing grade and not inferior enough to warrant an "F". The quality of work during the second semester will determine the awarding of credit for this first semester.

An incomplete will be given when a student's work for a grading period is not completed due to an excused absence. These incompletes must be made up by the due date on the make-up slip in order to receive full credit. Resolution of other incompletes must be arranged through the Principal's Office.

REPORT CARDS

Report cards, listing the grades for each of the student courses and the number of absences and tardies, will be issued at the end of each 9-week grading period.

LUNCH PROGRAM

Logan View Public Schools participates in the National School Lunch and Breakfast programs. In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age or disability.

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S. W., Washington, D.C. 20250-9410, or call (800) 795-3272 (voice) or (202) 720-6382 (TTY). USDA is an equal opportunity provider and employer.

LUNCH PERIOD

Students may eat the school lunch or bring their own, however, all students will eat in the cafeteria. Food is not to be taken from the cafeteria and carried to other areas of the school. **Money will not be taken in the lunch line.** The cost of each student meal will be recorded by computer. Students may deposit money in their meal account for as many meals as they would like to purchase. Students will be informed when they need to deposit more money into their meal account. **Any student whose account is more than \$5.00 in arrears will not be allowed to eat.**

After finishing lunch, secondary students may go to the designated commons area. The rest rooms west of the gym are to be used during the lunch period. Students are requested not to go to the parking lot, classrooms, or any area north of the main office during the lunch period.

Any groups, including classroom groups, that want to bring in an outside lunch must have the

permission of the administration 48 hours prior to secure an accurate lunch count.

NOTIFICATION OF ABSENCE

It is the parent's responsibility to call in their son or daughter's absence to the school between 7:30 A.M. and 9:00 A.M. The parent should call each day of an absence.

If no call has been received from the parent, the school will call the parent to verify the absence.

ATTENDANCE

Attendance everyday is essential to maximum achievement. We encourage daily attendance and strive to make it a reality. However, the final responsibility for regular attendance rests with the parent/guardian and student.

ABSENCE WITH PERMISSION: Students returning to school following an absence for illness or an emergency must present a note written and signed by the parent/guardian. The note should include the reason for and the specific day(s) of the absence. Students returning without the note described will be absent without permission.

PREARRANGED ABSENCES: These absences include family funerals, medical appointments or emergency requirements of necessary importance, which cannot be scheduled outside school hours. Students should bring a written request from the parent/guardian in advance so assignments can be completed and the signed make-up slip given to the Principal's office prior to the absence.

LIMITATION ON ABSENCES: Nebraska Statute 79-209 designates a maximum of five absences per quarter for students. Students that exceed the five absences will be required to meet with school officials to investigate the reasons for the excessive absences and to determine if additional educational counseling or evaluation is necessary. The student's parents or guardian will be required to attend this meeting. If the student's attendance does not improve, the school is required to file a report with the county attorney informing that office of the truancy.

More than **ten absences** from class or classes during any one semester will constitute justification for the denial of credit for that semester in the class or classes missed. A committee of faculty members will review the case of any student who exceeds the ten days and wishes to appeal the loss of credit. This committee may decide to support the loss of credit or to place the student on an Attendance Contract for the remainder of the semester. The decision of this committee will be based on an evaluation of the student's chances of successfully completing the semester's studies and on the reasons for the excessive absences as described in the parental appeal. Any unexcused absences the student had during that semester will result in an automatic denial of the appeal if 10 or more absences are recorded.

Attendance Contract: Students that meet the terms of the contract will be granted credit for the quarter or semester that is in question.

TARDIES

At Logan View Public Schools we believe it is important for students to be at school on time for the following reasons:

- 1) Students who are late to school miss at least part of a classroom activity.
 - 2) Students who enter a classroom after class has begun disrupt the activity in progress,
- and

3) Being on time to school helps students develop the habit of being prompt, which is important in life as well as school.

A tardy shall be recorded by the teacher if the student is 5 minutes or less late for class. After 5 minutes without a pass the student will be considered unexcused.

Three tardies to one period will result in a detention. Multiple tardy offenses will result in more stringent consequences decided upon by the administration.

ILLNESS OR ACCIDENT

Students who become ill at school should ask to be excused from class and report directly to the nurse. If necessary, the nurse will call the parents and arrange for them to pick up their child. If no one is home, the student will be kept in the nurse's room until the school day is over.

**In the event the nurse is out of the building, students should report to their classroom teacher for assistance.

In case of a serious accident of illness and the parents or designated alternative cannot be reached, the student will be taken to the nearest place offering medical treatment and by the fastest means possible.

Parents who object to this procedure should send a signed statement for insertion in the student's medical records.

BAD WEATHER AND SCHOOL CLOSINGS

In the event of bad weather, an automated message will be sent via the school reach system and parents and students are asked to listen to KFAB Omaha (AM 1100), KHUB Fremont (AM 1340), and KWPN West Point (AM 840/FM 107.9) radio stations, or call the LV information lines (Jr.-Sr. High: 654-5566, Elementary: 654-5577) for official announcements concerning the closing of school or the cancellation of planned school activities.

VISITORS

Parents are encouraged to visit their child's attendance center. In order to provide the best opportunity to observe a class and to limit any disruption in the learning process, parents are asked to contact the school 24 hours in advance so arrangements can be made.

Visitors other than parents are discouraged as it may be a distraction for the students and can interfere with the learning process.

TELEPHONE

Students will not be called out of classes to answer the telephone except in case of an emergency. A message will be delivered to the student if necessary. Emergency calls can be made from the office.

CELL PHONE

Students are not allowed to have cell phones on their person during regular school hours. If cell phones are brought to school, they must be left in lockers or in vehicles.

Consequences for the school year are:

1st offense: Detention will be assigned and the cell phone will be kept until the detention is served.

2nd offense: Detention will be assigned and the cell phone will be kept until the detention is served. Parent/guardian will be asked to pick up the phone from school.

3rd offense: The phone will be kept for the remainder of the school semester. If offense occurs the last 10 days of the semester, the penalty will carry over to the next semester.

If a student needs to make a call on their cell phone, the student should come to the office and request permission to make the call. The student could then be given permission to get his/her phone and make the call from an area designated by office personnel. **Such calls should only be made in emergency situations.**

Violation of this policy can result in the assignment of detention period(s). Multiple violations of the policy can result in confiscation of the cell phone.

ELECTRONIC DEVICES

Radios, CD players, MP3 players, IPODS, headphones, beepers, and pager-type devices are not allowed while school is in session, this includes lunch. If students are observed or discovered using such a device while school is in session the item will be confiscated and will only be returned to a parent/guardian. Logan View Public Schools is not responsible if these items are stolen at school.

STUDENT INSURANCE

Logan View has accident insurance available. Forms are mailed to students prior to school starting. Completed forms should be returned to the office. All students engaging in athletics are required to pass physical examinations and are encouraged to look in to school insurance if they have no insurance or need to supplement their coverage.

CHANGE OF ADDRESS

Students who have a change of address or phone number during the school year are to report this fact to the office.

DISCIPLINE

Students at Logan View are expected to conduct themselves in a respectable manner, to be considerate of others, and to take advantage of their educational opportunities. Permission to remain in class or in school is based on good behavior. Attendance ends as soon as the student shows unwillingness to observe the regulations of the class or school. The first time a student is asked to leave class for behavior problems, the incident is discussed with the student, teacher, and Principal. The second time a student is removed from the class their parents will be asked to visit the school and the student will not be allowed to re-enter the class until a satisfactory agreement has been reached. If a student must be removed from a class a third time, they will be suspended from that class up to twenty school days or the remainder of the semester. In each instance the student will receive zeros from that class each day of suspension. Students are subject to discipline by any and all school personnel at any and all school activities. Insubordination is a cause for suspension from school.

CONDUCT AND SUSPENSION / EXPULSION / EXCLUSION OF STUDENTS

I. Long-term Suspensions and Expulsions: Long-term suspensions shall mean the exclusion of a student from attendance in school within the Logan View Public Schools for a period

exceeding five school days but less than twenty school days. SEARCH AND SEIZURE

All students are responsible for obeying state law, policies of the Board of Education and the rules of the school. No student should bring anything to school, which is prohibited by statute, policy or school rule. The administration has the authority to search school property, student property (including cars) and students themselves when there is reason, under the circumstances, to believe a student has violated a statute, policy, or rule, or that the search may reveal items which may be injurious to the health, welfare, safety, or morals of the students or employees in the schools.

Administrators, teachers, and other supervisory personnel may hold students responsible regarding the student's own conduct and/or the contents in the school lockers, desks assigned to the student and/or vehicles driven to school by the student. In order to maintain orderly and reasonable school operations and student discipline, students have no claim to the right not to allow a search of school lockers, desks, or student owned vehicles; if the search is based on a reasonable suspicion that the desk, locker, vehicle or similar object or container holds material or substances prohibited by the school or local, state or federal law.

Students have full responsibility for the security of their lockers and their vehicles parked on school property, and shall make certain they are locked and that the keys and combination are not given to others. Students shall not place, keep, or maintain any article or material in lockers or vehicles parked on school property that is forbidden by law and/or District Policy. Lockers and vehicles parked on school property may be searched by school officials if there is reasonable cause to believe they contain articles or materials prohibited by law and/or District Policy.

Students shall be responsible for any prohibited items found in their lockers or vehicles parked on school property.

If a vehicle subject to search is locked, the student shall be asked to unlock the vehicle. If the student refuses, the District shall contact the student's parents. If the parents also refuse to permit the vehicle to be searched, the District may contact local law enforcement officials and turn the matter over to them. The District may in conjunction with law enforcement agencies use specially trained dogs to sniff out and alert to the current presence of concealed prohibited items, illicit substances and alcohol. This program is implemented in response to drug and alcohol use concerns by the District and to maintain a safe school environment conducive to education. Visits to schools shall be unannounced. The dogs shall be used to sniff the air in and around student lockers, and around vehicles parked on school property. The dogs shall not be used with students. If a dog alerts to a locker, a vehicle, or an item in a classroom, it may be searched by school officials. Searches of vehicles shall be conducted as described above. Students shall be informed of the District's policy on searches as outlined above at the beginning of the school year and shall be specifically notified that:

1. That periodic, random locker and parking lot inspections will take place throughout the school year.
2. Lockers may be sniffed by trained dogs at any time.
3. Vehicles parked on school property may be sniffed by trained dogs at any time.
4. If contraband of any kind is found, the student shall be subject to appropriate disciplinary action.

The student's parent or guardian shall be notified if any prohibited articles or materials are found in a student's locker or vehicle parked on school property, or on the student's person as a result of a search conducted in accordance with this policy.

The physician or parent/guardian should inform the appropriate school personnel of the potential benefits and the possible side effects of the drug being administered.

Opportunities must be provided for communication with student, parent, and physician regarding the efficacy of the medication administered during school hours.

All medications must be turned in to the office upon entrance to school. No prescription medication will be administered by the school unless it is turned in to the office in an appropriate pharmacy container with directions for administration and other pertinent data. If there are any side effects for the medication, the school must be aware of them. Permission forms are available upon request. If you need to send medication with your child and do not have a permission form, please stop by the school and fill one out authorizing that the medication be given.

Please call the school if you are in doubt about returning your child to school following such an illness.

FIRE DRILL

The signal for a fire drill will be the sounding of the bells located throughout the building. Such drills are necessary for the safety of the students in the school. There will not be time for getting of wraps or personal belongings. Follow instructions for leaving the building as given by the instructor in charge of your class. Fire drills will be conducted in compliance with Nebraska law.

FIELD TRIPS

The staff plans field trips for specific educational experiences. The school requires the written consent of parents/guardians before a child is permitted to go with the group. A general consent form is included with the summer mailing. Specific details will be made known in advance of each trip for your child.

All regulations of the school and the regulations concerning bus transportation will be enforced and followed by the students on field trips.

Students who do not follow the directions and procedures as directed by the sponsor will be subject to disciplinary action.

Students going on scheduled field trips are representing Logan View and will be expected to be dressed appropriately. Students not dressed appropriately will be held at school and follow normal school schedule.

NOTICE OF NONDISCRIMINATION

No Child Left Behind Act of 2001

The No Child Left Behind Act of 2001 gives parents the right to get information about the professional qualifications of their child's classroom teachers. Upon request, Logan View Public Schools will give parents the following information about their child's classroom teacher:

- (1) Whether the teacher has met State qualifications and licensing criteria for the grade levels and subject areas in which the teacher provides instruction.
- (2) Whether the teacher is teaching under an emergency or provisional teaching certificate.
- (3) The baccalaureate degree major of the teacher. You may also get information about other graduate certification or degrees held by the teacher, and the field of discipline of the certification or degree.

We will also, upon request, tell parents whether their child is being provided services by a paraprofessional and, if so, the qualifications of the paraprofessional.

The request for information should be made to an administrator in your child's building. The information will be provided to you in a timely manner. Finally, Logan View Public Schools will give timely notice to you if your child has been assigned, or has been taught for four or more consecutive weeks by, a teacher who does not meet the requirements of the Act.

Notice Concerning Disclosure of Student Directory Information

The Logan View Public School District has adopted a policy designed to assure parents and students the full implementation, protection, and enjoyment of their rights under the Family Educational Rights and Privacy Act of 1974. A copy of the school district's policy is available for review in the office of the superintendent of schools.

This law required the school district to designate as "directory information" any personally identifiable information taken from a student's educational records prior to making such information available to the public.

The school district has designated the following information as directory information: student's name, date and place of birth, email address, grade level, enrollment status, participation in officially recognized sports and activities, weight and height of athletic team members, dates of attendance, awards received, the most recent previous educational institution attended by the student, photographs and other likenesses, and other similar information. You have the right to refuse the designation of any or all of the categories of personally identifiable information as directory information with respect to your student provided that you notify the school district in writing not later than September 15, 2010. If you desire to make such a refusal, please request a form at the elementary or secondary school office, complete and return the form by the due date.

If you have no objection to the use of student information, you do not need to take any action.

Even though student addresses and telephone numbers are not considered directory information, military recruiters and post-secondary educational institutions may legally access this information without parental consent. Parents not wanting military recruiters and post-secondary educational institutions to have access the information must ask the school district to withhold the information. This can be done by completing and returning a form, which is available at the Jr.-Sr. High School office.

Elementary Section

DAILY SCHEDULE

Logan View Elementary School will begin at 8:30 a.m. on regular school days. Dismissal for grades 5 and 6 will be at 3:40 p.m.; dismissal for Kindergarten and 1st grade will be at 3:35; dismissal at Hooper will be at 3:30. Adjustments may need to be made at these sites to meet bus schedules.

Each of the sites will set lunch and recess break procedures to meet other schedules and student needs.

BEFORE AND AFTER SCHOOL

Logan View Elementary will provide supervision for students upon their arrival from the bus routes. Supervision will extend until their route bus picks up students.

Students not using district transportation are asked to be at their attendance site no earlier than 8:15 a.m. and leave immediately after dismissal unless the student is enrolled in the Logan View Clubhouse program. The classroom teacher or principal would arrange exceptions.

Students enrolled in the Logan View Clubhouse may arrive with their parents before school and are expected to report to their supervisor after school.

BUSSING

Bus transportation is provided for your convenience. Students who ride the bus to school will return home on that bus. We will not allow students to alter their after school destination without a written note from the parent/guardian. If circumstances arise during the school day that would require your child's after school destination to change, a phone call to your child's attendance center is required. **Please refer to page 12 for other bus rules.**

DRESS AND PERSONAL APPEARANCE

Appearance is the responsibility of the student and his/her parent. Students are expected to be appropriately dressed and acceptably groomed for school and school activities. Clothing shall not disrupt classroom decorum, and shall comply with reasonable standards of cleanliness and decency. **Footwear is required.**

The following types of clothing **WILL NOT** be permitted:

- a. Short shorts or skirts. (Shorts and skirts should be no shorter than mid thigh)
- b. Halters and exposed midriff blouses or shirts.

- f. Ripped or torn clothing, cut-off jeans or cut-off sweats.

g. Footwear must be secured to the foot for safety reasons. No flip-flops or open backed sandals should be worn to school.

h. Ornaments in body piercing may only be worn on the ears.

PROMOTION / RETENTION

Elementary students at Logan View Public Schools may be required to repeat a grade level. Promotion from Kindergarten, First Grade, and Second Grade will be based on the readiness of the individual student to progress to the next grade level as judged by the teachers who have worked with the student, the student's parents/guardians, and the administrator.

Promotion from grades 3, 4, 5, and 6 will be based on the academic performance of the individual student. Any student who does not pass a total of eight (8) semesters of core subjects for the academic year will automatically be considered for retention. The core subjects will be reading, spelling, language arts, social studies, science, and mathematics. Students who earn a final semester grade of "F" will have failed the semester.

Any student who has not met the academic standards for promotion as outlined above will be considered for retention by a committee consisting of the student's teachers, parents/guardians, and the elementary administrator.

Decisions regarding the promotion/retention of each handicapped student will be based on the IEP of the student and will be subject to review procedures of Rule 51 of the Nebraska Department of Education.

The Promotion/Retention process in the elementary grades will include early and continuous communications between the school and the students/parents/guardians.

DOWN LISTS / DEFICIENCY REPORTS

Elementary teachers in the Logan View Public Schools will constantly monitor the classroom performance of each individual. If, in the opinion of the teacher, a student is not achieving academic progress at a rate consistent with his/her ability the parents/guardians will be notified. Such contact may be in written form, or a personal contact. Such contact will include a review of the student's performance, a list of the apparent reasons for the student's lack of achievement, and recommendations for correction.

HOMEWORK

Early and continued student responsibilities foster good life-long organizational skills and self-confidence. Homework is helpful for students by:

1. Reinforcing the importance of school at home
2. Encouraging home/school cooperation in the learning process
3. Fostering self-discipline and organization
4. Reviewing and practicing acquired skills
5. Completing makeup work due to absence

Student homework is reviewed and/or graded regularly and usually will not require excessive time. Every effort is made to coordinate homework assigned by teachers to balance the amount of daily homework required. Long term assignments will require careful scheduling of time by students. Teachers monitor long-term assignments and provide student study guidelines when

necessary.

Parents are encouraged to:

1. Provide appropriate study area (and time) for students to complete homework
2. Assist students with work if necessary
3. Help students study for tests if necessary
4. Encourage regular completion of homework and reinforce quality work
5. Contact a child's teacher with questions about their child's homework

TARDIES

Students who are not in their assigned places by 8:30 a.m. will be considered tardy and reported as such. Students who have a reasonable excuse for being tardy will be excused providing they have a note or phone call from or personal contact with a parent/guardian stating the reason for the tardiness.

Tardies will be recorded by the classroom teachers. Children who accumulate an excessive number of unexcused tardies (more than two per academic quarter) will be assigned consequences, which may include forfeiture of recess time or making time after school.

TELEPHONE

Elementary students will not be permitted to use the school telephone without permission from a teacher.

UNEXCUSED ABSENCES

Parents are asked to limit unexcused absences and /or family vacations that exclude their children from school. If unavoidable absences occur, parents are asked to contact their child's teacher as soon as they become aware of such an absence. The teacher will furnish work to be completed in advance of the absence when possible. Upon returning to school the students may be required to forfeit recess time or remain after school to complete assignments.

WITHDRAWALS

Parents of elementary students should notify their teacher as soon as they know they will be leaving Logan View Public Schools. On or before their last day of attendance the student must turn in all books and materials belonging to the school and be certain no money is owed in order to guarantee the forwarding of records to the next school.

COUNSELING SERVICES

Student counseling services are available during the school year. Counseling services shall provide counseling, appraisal, staff consulting, referral, educational and, if appropriate, occupational planning and follow-up. Students may be seen individually or in small groups. Efforts are made to establish a trust relationship, identify problem areas, formulate a plan for change, and support the student in implementing his/her plan.

Parents, teachers, or students may complete referral forms made available in classrooms and in the office. Students are not allowed to see the counselor more than once (an introductory meeting) before parental permission is required.

LOCKERS

All elementary attendance centers have student lockers available. The lockers are school property, are assigned for use during school hours, and are subject to periodic general inspection by school officials.

Lockers are not to be “jammed” full, and must be closed and latched when not in use. K-4 student lockers are not to be locked.

Students are responsible for the condition of their lockers and may be fined for unnecessary damage.

TORNADO SAFETY ACTION

Each attendance center will have a tornado emergency plan, which will be practiced periodically. In the event of a tornado or other emergency, the proper execution of this plan will be important for the safety of the students and staff. Full student cooperation during the practice of these emergency plans is expected.

ACADEMIC RESPONSIBILITY

Students may be assigned to stay in during recess or after school to complete work that should have been completed during school. Students will not be kept for an extended period of time without parent notification. Frequent late or incomplete assignments will be reported to parents.

PLAYGROUND RULES

Parents who do not want their child to attend any or all of these field trips should notify their child’s teacher prior to the scheduled field trip asking that their child not be included. DOWN LISTS / DEFICIENCY REPORTS

A down's list will be published each Tuesday morning showing those students and subject areas in which they have failed the previous week. Students should be informed of the down and reason by the teacher listing the student on the report to the office. Parents are encouraged to monitor student progress via the internet using Powerschool. Passwords will be issued to students and parents to enable them to access this site, which contains student grades, teacher comments and e-mail addresses.

Parents may receive a deficiency report form or be personally contacted by teachers if students are failing a subject. Reasons for failure and recommendations for correction will be discussed.

Students will not be allowed to check out of study hall if they are on the down's list. If the teacher they are down for writes a pass for the student they will be allowed to leave ONLY to go to that teachers room, not the library or computer lab.

Students will not be able to participate in any extra curricular activities, including dances, if they are listed as ineligible on the down's list. Ineligibility runs from Tuesday to Tuesday.

You are ineligible if the following happens:

Failing 3 subjects for 1 week

Failing 2 subjects for 2 weeks in a row- This can be different subjects

This slip will be necessary in order to re-enter classes. Teachers will record a zero for each day's absence and change it when the work is made up. A student will be granted approximately 2 days make-up time for each day's absence up to a maximum of 5 days. More time will be allowed only if approved through the Principal's Office.

On the last day of attendance, students should bring a written statement from parents to the office. The student will be given a withdrawal form. Student Fees Policy

The Board of Education of Logan View Public Schools adopts the following fees policy in accordance with the Public Elementary and Secondary Student Fee Authorization Act.

The District's general policy is to provide for the free instruction in school in accordance with the Nebraska Constitution and state and federal law. This generally means that the District's policy is to provide free instruction for courses which are required by state law or regulation and to provide the staff, facility, equipment, and materials necessary for such instruction, without charge or fee to the students.

The District does provide activities, programs, and services to children, which extend beyond the minimum level of constitutionally required free instruction. Students and their parents have historically contributed to the District's efforts to provide such activities, programs, and services. The District's general policy is to continue to encourage and, to the extent permitted by law, to require such student and parent contributions to enhance the educational programs provided by the District.

Under the Public Elementary and Secondary Student Fee Authorization Act, the District is required to set forth in a policy its guidelines or policies for specific categories of student fees. The District does so by setting forth the following guidelines and policies. This policy is subject to further interpretation or guidance by administrative or Board regulations, which may be adopted from time to time. The Policy includes Appendix "1", which provides further specifics of student fees and materials required of students for the 2010-2011 school year. Parents, guardians, and students are encouraged to contact their building administration or their teacher(s) or activity coaches and sponsors for further specifics.

(1) Guidelines for Non-specialized Attire Required for Specified Courses and Activities.

Students have the responsibility to furnish and wear non-specialized attire meeting general District grooming and attire guidelines, as well as grooming and attire guidelines established for the building or programs attended by the students or in which the students participate. Students also have the responsibility to furnish and wear non-specialized attire reasonably related to the programs, courses, and activities in which the students participate where the required attire is specified in writing by the administrator or teacher responsible for the program, course, or activity.

The District will provide or make available to students such safety equipment and attire as may be required by law, specifically including appropriate industrial-quality eye protective devices for courses of instruction in vocational, technical, industrial arts, chemical or chemical-physical classes which involve exposure to hot molten metals or other molten materials, milling, sawing, turning, shaping, cutting, grinding, or stamping of any solid materials, heat treatment, tempering, or kiln firing of any metal or other materials, gas or electric arc welding or other forms of welding processes, repair or servicing of any vehicle, or caustic or explosive materials, or for laboratory classes involving caustic or explosive materials, hot liquids or solids, injurious radiations, or other similar hazards. Building administrators are directed to assure that such equipment is available in the appropriate classes and areas of the school buildings, teachers are directed to instruct students in the usage of such devices and to assure that students use the devices as required, and students have the responsibility to follow such instructions and use the devices as instructed.

(iii) Materials Required for Course Projects. Students are permitted to and may be encouraged to supply materials for course projects. Some course projects (such as projects in art and shop classes) may be kept by the student upon completion. In the event the completed project has more than minimal value, the student may be required, as a condition of the student keeping the completed project, to reimburse the District for the reasonable value of the materials used in the project. Standard project materials will be made available by the District. If a student wants to create a project other than the standard course project, or to use materials other than standard project materials, the student will be responsible for furnishing or paying the reasonable cost of any such materials for the project.

2010-2011 Student-Parent Activity Handbook

Introduction

This handbook has been prepared to guide all extra curricular personnel in the successful performance of their assigned tasks. In establishing this guide, many factors are considered. An attempt has been made to include all areas, problems and circumstances that normally occur in daily performance of duties. However, not all possible situations can be planned for or against. Procedures for particular situations not covered by this handbook will be established as they occur.

While carrying out your duty assignment always act for the best interest of all students concerned and for the best interest of each individual student. There are no minor sports or activities; whatever you do is important. Each sport or assignment is vital and necessary to you, to your school, to our community and to the overall excellence of our total program.

Activity Programs Goals and Objectives:

Each student participant will strive

- ❑ **To work with others-** a person must develop self-discipline, respect for authority, and the spirit of hard work and sacrifice. The team and its objectives must be placed higher than personal desires.
- ❑ **To be successful-** we do not always win, but we succeed when we continually strive to do so.
- ❑ **To develop sportsmanship-** to accept any defeat like a true sportsman, knowing we have done our best, we must learn how to be respectful of others. We need to develop emotional control, honesty, cooperation, and dependability.
- ❑ **To continuously improve-** we want to establish goals and constantly try to reach those goals. When goals are met we strive to reach new higher goals.
- ❑ **To enjoy activities-** it is necessary to enjoy participation, to acknowledge all of the personal rewards to be derived from activities, and to give sufficiently of themselves in order to preserve and improve the program.
- ❑ **To develop desirable personal health habits-** To be an active, contributing citizen, it is important to obtain a high level of physical fitness through exercise and good health habits, and to develop the desire to maintain this level of physical fitness after formal competition has been completed.

Section 1 Extracurricular Activity Philosophy

Extracurricular activity programs enrich the curriculum of the school by making available a wide variety of activities in which a student can participate. Extracurricular activity programs are considered an integral part of the school's program of education that provide experiences that will help students physically, mentally and emotionally.

The element of competition and winning, though it exists, is controlled to the point it does not determine the nature or success of the program. This is considered to be educationally and psychologically sound because of the training it offers for living in a competitive society. Students are stimulated to want to win and excel, but the principles of good sportsmanship prevail at all times to enhance the educational values of contests. Participation in activities, both as a competitor and as a student spectator, is an integral part of the students' educational experiences. Such participation is a privilege that carries with it responsibilities to the school, team, student body, community and the students themselves. In their play and their conduct, students are representing all of these groups. Such experiences contribute to the knowledge, skill and emotional patterns that they possess, thereby making them better individuals and citizens.

Safety

The District's philosophy is to maintain an activities program which recognizes the importance of the safety of the participants. To ensure safety, participants are required to become fully familiar with the dangers and safety measures established for the activity in which they participate, to adhere to all safety instructions for the activity in which they participate, to inform their coach or sponsor when they are injured or have health problems that require their activities be restricted, and to exercise common-sense.

Warning for Participants and Parents

The purpose of this warning is to bring your attention to the existence of potential dangers associated with athletic injuries. Participation in any intramural or athletic activity may involve injury of some type. The severity of such injury can range from minor cuts, bruises, sprains and muscle strains to more serious injuries to the body's bones, joints, ligaments, tendons, or muscles, to catastrophic injuries to the head, neck and spinal cord. On rare occasions, injuries can be so severe as to result in total disability, paralysis or death. Even with appropriate coaching, appropriate safety instruction, appropriate protective equipment and strict observance of the rules, injuries are still a possibility.

Section 2 Extracurricular Activity Code of Conduct

Purpose of the Code of Conduct. Participation in extracurricular activities is a privilege. The privilege carries with it responsibilities to the school, team, student body, and the community. Participants are not only representing themselves, but also their school and community in all of their actions. Others judge our school on the student participants' conduct and attitudes, and how they contribute to our school spirit and community image.

The student participants' performance and devotion to high ideals and values make their school and community proud. Consequently, participation is dependent upon adherence to this Code of Conduct and the school district's policies, procedures and rules.

Scope of the Code of Conduct.

Activities Subject to the Code of Conduct: The Code of Conduct applies to all extracurricular activities. Extracurricular activities means student activities or organizations which are supervised or administered by the school district which do not count toward graduation or grade advancement and in which participation is not otherwise required by the school.

Extracurricular activities include but are not limited to: all sports, cheerleading, dance team, Lettermen Club, Pep Band, vocal, band, speech and drama, One-Act, FFA, FCCLA, Spanish Club, Art Club, Student Council, Student Advisory Board, National Honor Society, and other school sponsored organizations and activities. The Code of Conduct also applies to participation in school sponsored activities such as school dances and royalty for such activities.

A participant means a student who participates in, has participated in, or will participate in an extracurricular activity.

When: The Code of Conduct rules apply to conduct which occurs at any time during the school year, and also includes the time frame which begins with the official starting day of the fall sport season established by the NSAA and extends to the last day of the spring sport season established by the NSAA, whether or not the student is a participant in an activity at the time of such conduct.

The rules also apply when a student is participating or scheduled to participate in an extracurricular activity that is held outside the school year or the NSAA season. For example, if an FBLA or FCCLA student plans to participate in a conference in July and commits a Code of Conduct infraction in June, the student may be suspended from participating in the conference. Conduct during the summer months may also affect a student's participation under the team selection and playing time guidelines.

Where: The Code of Conduct rules apply regardless of whether the conduct occurs on and off school grounds. If the conduct occurs on school grounds, at a school function or event, or in a school vehicle, the student may also be subject to further discipline under the general student code of conduct. A student who is suspended or expelled from school shall not be permitted to participate in activities during the period of the suspension or expulsion, and may also receive an extended activity suspension.

Grounds for Extracurricular Activity Discipline. Students who participate in extracurricular activities are expected to demonstrate cooperation, patience, pride, character, self respect, self-discipline, teamwork, sportsmanship, and respect for authority. The following conduct rules have been determined by the Board of Education to be reasonably necessary to aid students, further school purposes, and prevent interference with the educational process. Such conduct constitutes grounds for suspension from participation in extracurricular activities and grounds for other restrictions or disciplinary measures related to extracurricular activity participation:

1. Willfully disobeying any reasonable written or oral request of a school staff member, or the voicing of disrespect to those in authority.
2. Use of violence, force, coercion, threat, intimidation, bullying, harassment or similar conduct in a manner that constitutes a substantial interference with school or extracurricular activity purposes or making any communication that a reasonable person would interpret as a serious expression of an intent to harm or cause injury to another.
3. Willfully causing or attempting to cause substantial damage to property, stealing or attempting to steal property, repeated damage or theft involving property or setting or attempting to set a fire of any magnitude.
4. Causing or attempting to cause personal injury to any person, including a school employee, school volunteer, or student. Personal injury caused by accident, self-defense,

- or other action undertaken on the reasonable belief that it was necessary to protect another person shall not constitute a violation.
5. Threatening or intimidating any student for the purpose of, or with the intent of, obtaining money or anything of value from a student or making a threat which causes or may be expected to cause a disruption to school operations.
 6. Knowingly possessing, handling, or transmitting any object or material that is ordinarily or generally considered a weapon or that has the appearance of a weapon, or bringing or possessing any explosive device, including fireworks, on school grounds or at a school function or event, or in a manner that is unlawful or contrary to school activity rules.
 7. Selling, using, possessing or dispensing alcohol, tobacco, narcotics, drugs, a controlled substance, or an inhalant; being under the influence of any of the above; possession of drug paraphernalia, or the selling, using, possessing, or dispensing of an imitation controlled substance as defined in section 28-401 of the Nebraska statutes, or material represented to be alcohol, narcotics, drugs, a controlled substance or inhalant. (Note: Refer to “Drug and Alcohol Violations” for further information).
 8. Public indecency.
 9. Sexual assault or attempting to sexually assault any person. Engaging in sexual conduct, even if consensual, on school grounds or at a school function or event.
 10. Engaging in any activity forbidden by law which constitutes a danger to other students, interferes with school purposes or an extracurricular activity, or reflects a lack of high ideals.
 11. Repeated violation of any of the school rules.
 12. Truancy or failure to attend assigned classes or assigned activities; or tardiness to school, assigned classes or assigned activities.
 13. The use of language, written or oral, or conduct, including gestures, which is profane or abusive to a school employee, school volunteer, or student. Profane or abusive language or conduct includes, but is not limited to, that which is commonly understood and intended to be derogatory toward a group or individual based upon race, gender, national origin, or religion.
 14. Dressing or grooming in a manner which is dangerous to the student’s health and safety or a danger to the health and safety of others or repeated violations of dress and grooming standards; dressing, grooming, or engaging in speech that is lewd or indecent, vulgar or plainly offensive; dressing, grooming, or engaging in speech that school officials reasonably conclude will materially and substantially disrupt the work and discipline of the school or of an extracurricular activity; dressing, grooming, or engaging in speech that a reasonable observer would interpret as advocating illegal drug use.
 15. Willfully violating the behavioral expectations for those students riding Logan View Public School buses or vehicles used for activity purposes.
 16. Failure to report for the activity at the beginning of the season. Reporting for one activity may count as reporting on time if there is a change in activity within the season approved by the coach or the supervisor.
 17. Failure to participate in regularly scheduled classes on the day of an extracurricular activity or event.
 18. Failure to attend scheduled practices and meetings. If circumstances arise to prevent the participant’s attendance, the validity of the reason will be determined by the coach or sponsor. Every reasonable effort should be made to notify the coach or sponsor prior to any missed practice or meeting.
 19. All other reasonable rules or regulations adopted by the coach or sponsor of an extracurricular activity shall be followed, provided that participants shall be advised by

the coach or sponsor of such rules and regulations by written handouts or posting on bulletin boards prior to the violation of the rule or regulation.

20. Failure to comply with any rule established by the Nebraska School Activities Association, including, but not limited to, the rules relating to eligibility.

All terms used in the Code of Conduct have a less strict meaning than under criminal law and are subject to reasonable interpretation by school officials.

Drug and Alcohol Violations.

Meaning of Terms.

Use or consume includes any level of consumption or use. Use of a controlled substance in the manner prescribed for the student by the student's physician is not a violation.

Under the influence means any level of impairment and includes even the odor of alcohol on the breath or person of a student, or the odor of an illicit drug on the student. Also, it includes being impaired by reason of the abuse of any material used as a stimulant.

Possession includes having control of the substance and also includes being in the same area where the substance is present and no responsible adult present and responsible for the substance. Possession includes situations where, for example:

- (1) Alcohol is in a vehicle in which the student is present. The student is considered to be in possession if the student is aware that the alcohol is in the vehicle, even though the student has not touched or consumed the alcohol; and
- (2) Alcohol is present at a party attended by the student. The student is considered to be in possession if the student is aware that alcohol is at the party and fails to immediately leave the party, even though the student has not touched or consumed the alcohol.

In these situations, a violation would not exist if the alcohol is in the control of a parent or guardian or other responsible adult (age 21 or older) such that students are not allowed to access the alcohol. A violation would also not exist if the student did not know or have a reasonable basis to know that alcohol would be present, and the student leaves the location where the alcohol is present as soon the student could safely do so. (Students are expected to leave immediately, but are not to do so in a manner that would endanger them. For example, you are not to leave in a car being driven by a person who has been drinking just to get away from the alcohol party immediately when there is no other way to get home. Instead, you should call for a safe ride home and, while waiting, clearly distance yourself from the alcohol).

Consequences.

Students may be suspended from practices or participation in interscholastic competition or participation in co-curricular activities for violations of the Code of Conduct. The period of suspension or other discipline for such offenses shall be determined by the school administration.

The disciplinary consequence will be determined based on consideration of the seriousness of the offense, any prior violations, the student's compliance with the self-reporting obligations, the student's

level of cooperation and willingness to resolve the matter, and the student's demonstration of a commitment to not commit future violations.

Because of the significance of drug and alcohol violations on the student participants, other students and the school, the following consequences are established for such violations:

Drugs and Alcohol.

An activity participant who violates the drug or alcohol rules (other than steroids) shall be prohibited from participating in any extracurricular activity for the following minimum periods:

1. First Violation: 21 Calendar days
2. Second or Any Subsequent Offense: 42 Calendar days and Chemical Dependency Program.
3. Reduction for Self-Reporting: If the student has self-reported, the first violation shall be reduced by 5 days for the first and second violation.
4. Reduction for Participation in Chemical Dependency Program: If the student and parents agree to participate in a school-approved program for chemical dependency, the consequence will be reduced to only the next activity in which the student was to participate (including at least one contest) in the case of a first violation. The program must be administered by a certified alcohol and drug abuse and be approved by the school authorities. The student will need to successfully complete the approved chemical dependency program. Proof of successful completion of program must be submitted in writing to the Activities Director. Failure to participate and successfully complete the approved chemical dependency program may cause the participating student to be suspended from extracurricular activities for one calendar year. All costs associated with the program are to be borne by the student/parent or guardian.
5. More Serious Violations: In the event of more serious drug or alcohol violations, such as students engaging in use of especially serious drug offenses (cocaine, meth, etc.) or procuring alcohol for minors, the consequence of the violation is not restricted by the foregoing, and may be established in the good discretion of the administration.

Steroid Offenses. A student who possesses, dispenses, delivers, or administers anabolic steroids shall be prohibited from participating in any extracurricular activity for the following minimum periods:

1. First Violation: 30 consecutive days.
2. Second or Any Subsequent Offense: One calendar year.

When Suspensions Begin. All suspensions begin with the next scheduled activity in which the student is a participant, after the determination by school officials of the sanction to be imposed; provided that the school officials shall have the discretion to establish a time period for the suspension that makes the suspension have a real consequence for the student. During a suspension, participants may be required or permitted to practice at the sole discretion of the coach or activity sponsor. Suspensions in the Spring will be carried over to the Fall when the suspension has not been fully served or when determined appropriate for the suspension to have a real consequence for the student.

Letters and Post-Season Honors. A student who commits a Code of Conduct violation is:

1. Eligible to letter, provided the student meets the criteria of the coach or sponsor.

2. Not eligible to receive honors during the sport or activity in which they are participating at the time of the offense and/or in sports or activities in which they have been suspended due to a code violation. The coach/sponsor, with the Athletic Director's approval, may make an exception where the student has self-reported or otherwise demonstrated excellence in character allowing for such honors.

Self-Reporting. A student who violates the Code of Conduct must self-report. A failure to self-report will lead to a longer suspension or other discipline. The self-report must be made to: the principal, athletic director, or the head coach or sponsor of an activity in which the student participates. The student's parent or guardian may initiate the self-reporting process, but the student will be later required to give a written statement of the self-report. The self-report must be made the earlier of (1) before the end of the next school day after the conduct occurred and (2) before participation in an extracurricular or co-curricular activity.

In making a self-report, the student must identify the events that took place, what conduct the student engaged in, and any witnesses to the student's conduct, and will be required to put this information in a written statement. In the event the student has received a criminal citation, charge, or ticket, and proclaims innocence of a violation, the student will be required to self-report such offense and provide information as to why they should be found innocent, not as it relates to the criminal offense, but as it relates to the Code of Conduct.

All students are expected to be honest and forthright with school officials. In the event the coach or activity sponsor or any school administrator asks a student participant for information pertaining to compliance (or lack of compliance) by the student or other student participants with the Code of Conduct or eligibility conditions for participation in activities, the student is expected to fully, completely, and honestly provide the information. Students may be disciplined for a failure to be honest and forthright.

Determining a Violation Has Occurred. A violation of the Code of Conduct will be determined to have occurred based on any of the following criteria:

1. When a student is cited by law enforcement and school officials have a reasonable basis for determining that grounds for the issuance of the citation exist.
2. When a student is convicted of a criminal offense. Conviction includes, without limitation, a plea of no contest and an adjudication of delinquency by the juvenile court.
3. When a student admits to violating one of the standards of the Code of Conduct.
4. When a student is accused by another person of violating one of the standards of the Code of Conduct and school officials determine that such information is reliable.
5. When school officials otherwise find sufficient evidence to support a determination that a violation has occurred.

Procedures for Extracurricular Discipline. The following procedures are established for suspensions from participation in extracurricular activities:

1. Investigation. The school official(s) considering the suspension will conduct a reasonable investigation of the facts and circumstances and determine whether the suspension will help the student or other students, further school purposes, or prevent an interference with a school purpose.

2. Meeting. Prior to commencement of the suspension, the school official considering the suspension or their designee will provide the student an opportunity to give the student's side of the story. The meeting for this purpose may be held in person or via a telephone conference.
 - a. The student will be given oral or written notice of what the student is accused of having done, an explanation of the evidence the school has, and the opportunity to explain the student's version. Detail is not required where the activity participant has made a self-report or otherwise admits the conduct. Names of informants may be kept confidential where determined to be appropriate.
 - b. The suspension may be imposed prior to the meeting if the meeting can not reasonably be held before the suspension is to begin. In that case the meeting will occur as soon as reasonably practicable. The student is responsible for cooperating in the scheduling of the meeting.
3. Notice Letter. Within two school days (two business days if school is not in session), or such additional time as is reasonably necessary following the suspension, the Athletic Director or the Athletic Director's designee will send a written statement to the student and the student's parents or guardian. The statement will describe the student's conduct violation and the discipline imposed. The student and parents or guardian will be informed of the opportunity to request a hearing.
4. Informal Hearing Before Superintendent. The student or student's parent/guardian may request an informal hearing before the Superintendent. The Superintendent may designate the Athletic Director or another administrator not responsible for the suspension decision as the Superintendent's designee to conduct the hearing and make a decision.
 - a. A form to request such a hearing must be signed by the parent or guardian. A form will be provided with the notice letter or otherwise be made available by request from the Principal's office.
 - b. The request for a hearing must be received by the Superintendent's office within five days of receipt of the notice letter.
 - c. If a hearing is requested:
 - i. The hearing will be held within ten calendar days of receipt of the request; subject to extension for good cause as determined by the Superintendent or the Superintendent's designee.
 - ii. The Superintendent or the Superintendent's designee will notify the participants of the time and place of the hearing a reasonable time in advance to allow preparation for the hearing.
 - iii. Upon conclusion of the hearing, a written decision will be rendered within five school days (ten calendar days if school is not in session). The written decision will be mailed or otherwise delivered to the participant, parents or guardian.
 - iv. A record of the hearing (copies of documents provided at the hearing and a tape recording or other recordation of the informal hearing) will be kept by the school if requested sufficiently in advance of the hearing by the parent/guardian.
5. No Stay of Penalty. There will be no stay of the penalty imposed pending completion of the due process procedures
6. Opportunity for Informal Resolution. These due process procedures do not prevent the student or parent/guardian from discussing and settling the matter with the appropriate school officials at any stage.

Section 3 Attendance

Student participants are expected to meet the following attendance expectations:

1. Attend school regularly. Students who have “excessive absences” as determined under the school’s attendance policy are ineligible to participate in extracurricular activity contests or performances. Students who have four or more unexcused absences in the semester of participation will be ineligible to participate in extracurricular activity contests or performances.
2. Be on time for all scheduled practices, contests and departure for contests. In the event a participant is unable to attend a practice or contests the participant should contact the coach or sponsor in advance.
3. On the day of a contest, performance or other activity, be in attendance for the full day. A student who is not in attendance the full day is ineligible for the contest, performance, or activity.

Exceptions may be made for extenuating circumstances, such as doctor/dentist appointments or family emergencies. The exception must be approved by the Principal or Athletic Director.

Every attempt should be made to be in attendance the day of a contest. Sleeping in to rest up for the game will not be considered an extenuating circumstance, nor will going home ill and then returning to play in the contest later that day.

Section 4 Academic Standards

Participation in extracurricular school activities is encouraged and desirable for all students. At the same time, the primary mission and responsibility for each student is to establish a firm academic foundation. A student participating in extracurricular school activities show evidence of sincere effort towards scholastic achievement. To be eligible for participation in extracurricular activities students must:

1. Be enrolled in at least 20 credit hours in the semester of participation.
2. Have received credit for 20 hours for the immediate preceding semester.
3. Pass four or more academic classes at the end of the 9-week grading period or be ineligible for the next 9-week period.
4. Academic requirements do not apply to:
 - (A) Instructional field trips which are a part of the scheduled course learning experience; or
 - (B) Activities or events which are a part of the student=s grade requirements.
5. Students must also maintain weekly eligibility. Any student failing more than one class two weeks in a row will not be eligible to participate in any school activity the second week or days thereafter until less than any two classes are failed. The eligibility week begins at 8 A.M. on Tuesday and ends at 7:59 A.M. the following Tuesday. The eligibility list will continue one week after the 9-weeks is over.
6. Failure in three subjects during any one week period immediately make a student ineligible for all activities.

Any exceptions to the eligibility requirements because of exceptional circumstances will be made only after discussion and mutual agreement by the principal, activities director, sponsor, and the teacher(s) of the classes failed.

Section 5 “Team Selection” and “Playing Time”

“Team selection” and “playing time” decisions are the responsibility of the individual coach or sponsor of the activity. Consistent, however, with the purposes of the activities program, the coaches and sponsors shall follow the following established guidelines for team selection and playing time decisions, along with such other guidelines as each individual coach and sponsor may develop which are not inconsistent with these established guidelines:

1. School Representative. Student participants must demonstrate that they can and will represent themselves and their school in a manner which reflects the development of high ideals and appropriate values, which shall include good citizenship in the school and in the community.
2. Success. Student participants must demonstrate that they can make the activity program more successful, both from a standpoint of competitive success and success in promoting a positive school spirit. Characteristics for purposes of these criteria include the student’s: (1) talent or skill, (2) desire to improve the student's own skills or talents as well as those of others in the activity, and (3) attitude of respect towards teammates, the coach, the school, and the community.

Section 6 Relationships Between Parents and Coaches/Sponsors

Both parenting and coaching are very difficult vocations. By establishing an understanding between coaches and parents, both are better able to accept the actions of the other and provide a more positive experience for everyone.

Parents have the right to know the expectations placed on them and their children. Coaches and sponsors have the right to know that if parents have a concern, they will discuss it with the coach at the appropriate time and place.

Parents’ Role in Interscholastic Athletics and Other Extracurricular Activities

Communicating with your children

- Make sure that your children know that win or lose, scared or heroic, you love them, appreciate their efforts and are not disappointed in them. This will allow them to do their best without fear of failure. Be the person in their life they can look to for constant positive reinforcement.
- Try your best to be completely honest about your child’s athletic ability, competitive attitude, sportsmanship and actual skill level.
- Be helpful but don’t coach them. It’s tough not to, but it is a lot tougher for the child to be flooded with advice and critical instruction.
- Teach them to enjoy the thrill of competition, to be “out there trying,” to be working to improve their skills and attitudes. Help them develop the feeling for competing, for trying hard, for having fun.

- Try not to relive your athletic life through your child in a way that creates pressure. If they are comfortable with you win or lose, then they are on their way to maximum enjoyment.
- Don't compete with the coach. If your child is receiving mixed messages from two different authority figures, he or she will likely become disenchanted.
- Don't compare the skill, courage, or attitude of your child with other members of the team.
- Get to know the coach(es). Then you can be assured that his or her philosophy, attitudes, ethics, and knowledge are such that you are happy to have your child under his or her leadership.
- Always remember that children tend to exaggerate, both when praised and when criticized. Temper your reaction and investigate before overreacting.

Communicating with the coach

- Communication you should expect from your child's coach includes:
 - Philosophy of the coach
 - Expectations the coach has for your child
 - Locations and times of all practices and contests
 - Team requirements
 - Procedure should your child be injured
 - Discipline that results in the denial of your child's participation
- Communication coaches expect from parents
 - Concerns expressed directly to the coach
 - Notification of any schedule conflicts well in advance
 - Specific concerns in regard to a coach's philosophy and/or expectations
- Appropriate concerns to discuss with coaches:
 - The treatment of your child, mentally, and physically
 - Ways to help your child improve
 - Concerns about your child's behavior
 - Injuries or health concerns. Report injuries to the coach immediately!! Tell the coach about any health concerns that may make it necessary to limit your child's participation or require assistance of trainers. Students are sometimes unwilling to tell coaches when they are injured, so please make sure the coach is told.
- Issues not appropriate to discuss with coaches:
 - Playing time
 - Team strategy
 - Play calling
 - Other student-athletes (except for reporting activity code violations)
- Appropriate procedures for discussing concerns with the coaches:
 - Call to set up an appointment with the coach
 - Do not confront a coach before or after a contest or practice ((these can be emotional times for all parties involved and do not promote resolution)
- What should a parent do if the meeting with the coach did not provide satisfactory resolution?
 - Call the athletic director to set up a meeting with the athletic director, coach, and parent present.
 - At this meeting, an appropriate next step can be determined, if necessary.

Section 7 Good Sportsmanship—Behavior Expectations of Spectators

Good sportsmanship is expected to be exhibited by all coaches, sponsors, students, parents and other spectators. The school can be punished by NSAA for a lack of good sportsmanship at NSAA sanctioned events. More importantly, activities are more enjoyable for the students when good sportsmanship is displayed.

Responsibilities of Spectators Attending Interscholastic Athletics and Other Extracurricular Activities

1. Show interest in the contest by enthusiastically cheering and applauding the performance of both teams.
2. Show proper respect for opening ceremonies by standing at attention and remaining silent when the National Anthem is played.
3. Understand that a ticket is a privilege to observe the contest, not a license to verbally attack others, or to be obnoxious. Maintain self-control.
4. Do not “boo,” stamp feet or make disrespectful remarks toward players or officials.
5. Learn the rules of the game, so that you may understand and appreciate why certain situations take place.
6. Know that noisemakers of any kind are not proper for indoor events.
7. Obey and respect officials and faculty supervisors who are responsible for keeping order. Respect the integrity and judgment of game officials.
8. Stay off the playing area at all times.
9. Do not disturb others by throwing material onto the playing area.
10. Show respect for officials, coaches, cheerleaders and student-athletes.
11. Pay attention to the half-time program and do not disturb those who are watching.
12. Respect public property by not damaging the equipment or the facility.
13. Know that the school officials reserve the right to refuse attendance of individuals whose conduct is not proper.
14. Refrain from the use of alcohol and drugs on the site of the contest.
